PROFILE SUMMARY

Passionate and self-driven Front-End Developer with hands-on experience in HTML, CSS, Tailwind, JavaScript, and React. Eager to contribute to a dynamic development team and grow in a real-world tech environment through an internship or junior role.

PROJECTS

Actodo - React Task Management App | React.js, Tailwind CSS, React Hooks

Live App: https://actodo-six-mauve.vercel.app/

GitHub Link: https://github.com/keerthi05k/actodo

- Built a functional task manager app with features like task   addition, deletion, and local state management using React Hooks
- Designed with scalability in mind, including future-ready architecture for filtering and API integration

Weather App - **Live Weather App**

Live App: https://weather-app-stgp.vercel.app/

GitHub Link: https://github.com/keerthi05k/Weather-App

- A responsive weather forecast application built with React. Allows users to search any city and view real-time temperature, weather conditions, and icons.
- Integrated OpenWeatherMap API using fetch and managed UI with React Hooks like useState and useEffect. Styled cleanly using Tailwind CSS for mobile-friendly design.

CERTIFICATIONS

FUNDAMENTALS OF WEB DEVELOPMENT – ERROR MAKES CLEVER ACADEMY (MAY 2025)

- Completed hands-on training in HTML5, CSS3, JavaScript (ES6+), and React.js
- Built real-world projects using React Hooks, REST APIs, Tailwind CSS, and Git
- Gained experience in deploying applications on Vercel and following best practices in modern web development
